

PRO-MARK®

**SUPPLYING CATHODIC
PROTECTION SOLUTIONS...**™

TEST STATIONS AND ACCESSORIES

Pro-Mark manufactures a wide variety of Test Stations and Accessories. Extrusion and injection molding facilities are located in Santa Fe Springs, CA and Dallas, TX. All cathodic protection Test Stations manufactured by Pro-Mark are made from high impact strength, non-conductive and UV protected polycarbonate and have a lifetime warranty. Test Stations are made to serve as an above ground source for monitoring buried items and providing an outlet to alter or manipulate chemical reactions taking place between metal objects and surrounding soil.

Test Stations:
